

Making a St. Patrick's Badge

Materials: Coloured ribbon, Card / plain & coloured, Cardboard
Coloured paper / shiny paper, Felt & coloured cloth
Material, Scissors, Glue, Safety pins, Double sided tape

St. Patrick's Badge

- **Step 1**

Start with cutting out a circular piece of cardboard about 3 inches x 3 inches. Round off the edges to make smooth. You can make the cardboard thicker by adding layers to it.

- **Step 2**

Cover the piece of cardboard with a material/card of your choice. Glue onto the card and cut to round the edges. This will be your template to decorate.

- **Step 3**

Cut strips of ribbon and put onto the card/ material to make a cross. Lots of different colours can be used.

- **Step 4**

Add some coloured card/ material or paper to decorated the St. Patricks Badge.

- **Step 5**

Get a pin and strap it to the back of your badge or roll up some masking tape so it will stick to you.

Congratulations you have your own St. Patrick's Badge!
